SIMPLIFIED COMMUNICATIONS

With iPECS Cloud

What is iPECS Cloud?

iPECS Cloud brings all of the features you know and love from an on-premise phone system and delivers them through the cloud.

iPECS Cloud is tailored to deliver reliable and simple communications to your desktop from our highly secure and resilient data centres. This means we manage the phone system for you and you just use the handset, web portal or applications to access everything you need, when you need it.

Why would it suit my business?

Because iPECS Cloud is designed to scale it suits all sizes of business whether you are have a single home office or multiple locations around the globe.

With on-demand features and same-day provisioning you can add users or remove users quickly and easily. With our advanced feature packs you can completely tailor the user's experience and provide a call centre solution, reception console and much more with a simple click.

What benefits will it deliver?

iPECS Cloud brings your teams together with simple tools for collaboration and communication.

On-demand access to features and the ability to add or remove users means you have the flexibility to adapt to your business needs.

With fully featured handsets and simple web, PC or smartphone interfaces your users will understand the benefits of iPECS Cloud in record time.

Phones can be automatically and quickly provisioned directly from the cloud.

CLOUD SOLUTIONS TAILORED TO THE NEEDS OF YOUR TEAM

MANAGING DIRECTOR

"iPECS Cloud means I can scale and grow my business with confidence and know that everyone in my business can communicate and collaborate."

OFFICE MANAGER

"The wallboard tells me and the team when we all need to grab the phones and simple reports help me stay on top of costs and response times."

MOBILE SALES EXECUTIVE

"I am always on the go and iPECS Cloud has enabled me to access my office communications regardless of device, location or time."

SALES AND SUPPORT AGENT

"I can support my customers better as they know what's happening if they ever have to queue. There's a simple announcement with auto attendant helping direct the call."

GLOBAL ACCOUNT MANAGER

"Travelling abroad used to mean lots of expensive calls to the office and restricting calls home to my family but with iPECS Cloud technology on my smartphone and laptop I can easily call at local rates wherever I am in the world."

WAREHOUSE SUPERVISOR

"My mobile IP DECT handset means wherever I am everyone can still easily reach me. My team can also share a phone and access the communications they need."

RECEPTIONIST

"I can easily see what everyone is doing and transfer calls with a single button or mouse click. It's never been easier."

IT MANAGER

"With a simple and intuitive web portal I can make changes to iPECS Cloud myself and complete handset moves quickly and easily."

HOME BASED WORKER

"Being able to see the status ("presence") of my colleagues and instant message quick questions makes me feel like I am sitting next to my team."

Phones

These handsets are designed to provide a simple user experience with access to the full iPECS features and functionality

1010i

Designed for deployments in low user areas like unmanned reception areas, warehouse locations and hallways. It is perfect for businesses requiring access to the functionality of the iPECS platform.

1030i

Considered as the entry-level phone for the office worker, it is a phone for the occasional use office worker. It includes a full colour screen, backlit display and programmable keys.

1040i

The work horse of the 1000i range, a perfect blend of user-programmable buttons, fixed features and a large colour display. This is ideal for desk-based workers who are spending a significant amount of the day on the phone.

1050i

Welcome to the 'Executive' model of the 1000i range. The current top-of-the-range phone includes a large full-colour display and the greatest amount of user-programmable buttons. This is ideal for desk-based workers who handle a large amount of call traffic on a daily basis.

Phones, Clients and Redundancy

Tailor for your users with the right devices for their needs

LIP-9071

The 9071 delivers an immersive telephony experience, with a full touchscreen Android interface, apps and web browsing will become natural to using this phone as a tablet as well as a desk phone. Other features include HDMI output and Bluetooth support via a dongle.

GDC 800R GDC 800H 110 DH 130 DB

IP DECT

iPECS IP DECT provides your team with full access to the system regardless of their location. Perfect for staff on the move or working in warehouse, workshop or campus locations.

Yealink Phones

Yealink is a leading provider of UC devices and endpoints. With 3 options available: CP920 & CP960 conference phones and the W53P IP DECT phone.

WiFi Phone

Ascom i62 a premium VoWiFi handset that is easy to carry, robust and drop resistant. It is designed to utilize open standards for communication.

Local Redundancy

You can complement iPECS Cloud with an iPECS on-premise call server. This gives you complete peace of mind and business continuity. From Cloud 3.5 it is possible to use the eMG80 as an LCM.

Unified Communication and Collaboration

Empowering your team to work together more productively

UCE Mobile

Collaborate with colleagues and stay in contact with customers whilst on the move.

Key Features include:

- Presence: Easily see whether your colleagues are available using integrated presence
- Instant messaging
- Easy and intuitive conference calling
- Visual voicemail

UCE Desktop

Access the power of iPECS Unified Communications wherever you are with iPECS UC desktop client on your PC.

Key Features include:

- Instant Messaging
- Audio conference manager to set up ad-hoc or a conference room
- Visual voicemail

iPECS Cloud Mobile

iCM is a mobile service that delivers telephony functionality to the user through iPECS Cloud. Removing the need for a bulky mobile app, iCM delivers key functionality to the user and business;

- Record all calls to a mobile extension
- Report on and manage a mobile extension as if it was a desk phone
- Direct internal calls from mobile to office - just dial the extension number
- No mobile app required
- Present any number when making a call

With iCM your mobile workers are no longer reliant upon an additional app to be able to communicate with colleagues in the office and manage their calls. iCM embeds telephony functionality directly to the SIM card and requires minimal setup and provisioning.

Skype for Business Integration

Voice enable your Skype for Business Unified Communications tools using our simple application. Both Office 365 and on-premise Exchange are supported with this simple add-on app that fully integrates iPECS into your Microsoft UC desktop.

iCS Insight is a business productivity tool delivering powerful call data visualisation via pre-defined dashboard and wallboard.

Call data visualisation

- **Accessible from any internet facing device:** Access call analytics via a web browser on traditional desktop devices or monitor on the go through your mobile.
- **Call metrics:** Delivery of essential call information via an intuitive dashboard and visual wallboard.
- **Monitor performance:** View call activity by DDI / extension / user.
- **Export and email:** Export reports as PDF or CSV and email to any email address.
- **Quick access via any client device:** Quick access to KPI reports.
- **Mobile-optimised:** The mobile-responsive application design facilitates access to business reports whenever and wherever needed.

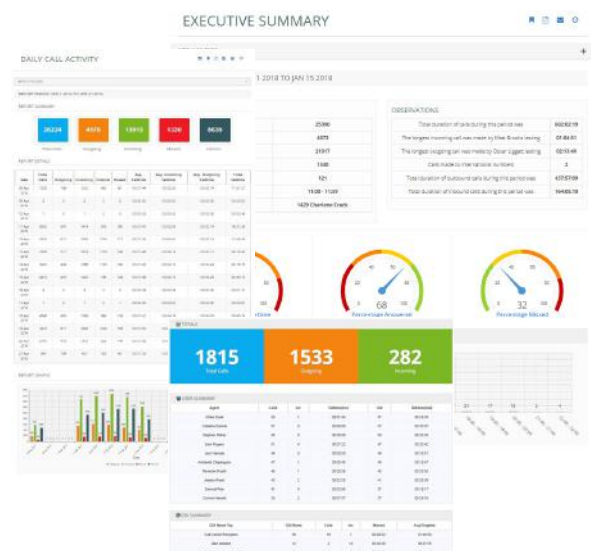

Monitor inbound and outbound calls on any device using iCS Report. Access configurable dashboards and detailed reporting. View wallboards, run and schedule reports.

Manage service levels and make informed decisions

- **Browse an extensive catalogue of reports** or use filter to customise your own to identify trends in performance. Report on call activity by extension, department, DDI and user.
- **Incoming call analytics.** Measure call volumes, targets, grade of service, percentage calls answered and unreturned missed calls.
- **Schedule reports** for yesterday, last week or custom dates.
- **Executive reports** collate data from multiple reports and provide observations and recommended actions.
- **Customised dashboards and wallboards.**

Detailed analysis enables you to maximise staff and resource productivity, minimise costs, avoid missed opportunities from dropped calls and deliver the highest levels of customer service.

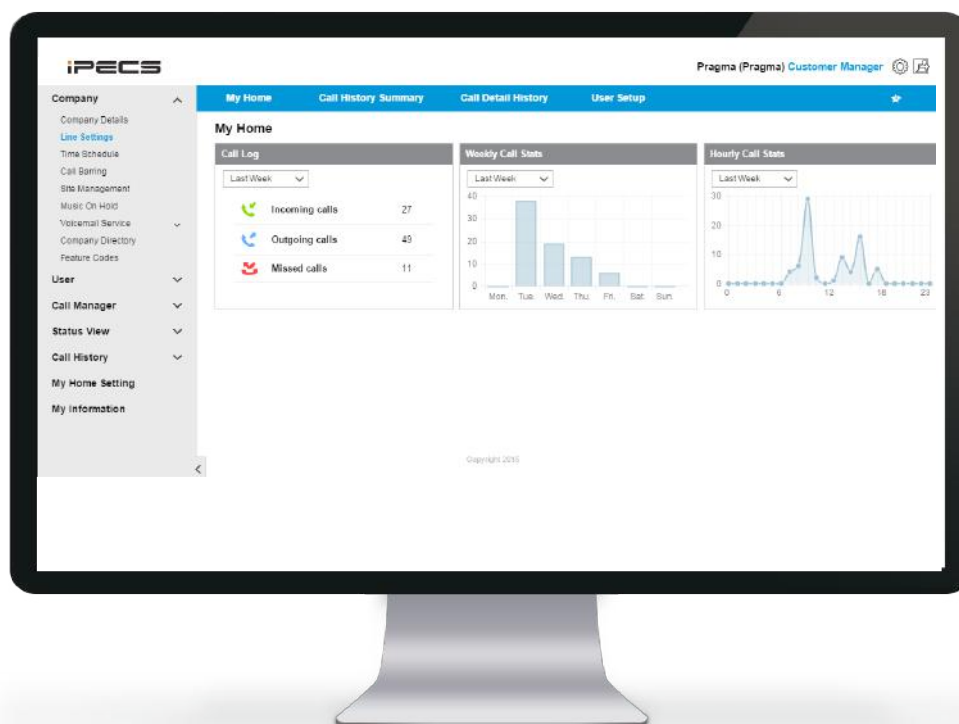

Cloud Portal
